

# Chariot 4G Navigator

Track your vehicle, trailer or heavy equipment with the high-precision Chariot 4G Navigator GPS vehicle tracker. The cellular 4G LTE-M / NB-IoT/GLONASS tracking device gets hardwired to your vehicle's power source, with an internal backup battery for uninterrupted, accurate real-time tracking.

## high-precision tracking

Simultaneous use of GPS and GLONASS positioning systems for enhanced tracking accuracy.

## rugged & weatherproof

The IP67 rated housing is rugged and UV stable. Can be mounted on assets exposed to rain, dust and marine conditions.

## run hour monitoring

Accident and rollover detection, speeding, harsh braking, and more.

### KEY FEATURES INCLUDE:

- High precision GPS
- Real-time tracking
- Rugged & weatherproof
- Back-up battery
- Customizable inputs/outputs
- Driver ID options
- Driver safety & behaviour
- Accident & rollover detection
- Run hour monitoring
- Preventative maintenance
- Flash memory stores weeks of records if device is out of cellular coverage
